B2B Technical Sales & Global Business Development |  
Driving International Market Entry & Client Success  
leedg7120@naver.com | +82-10-7120-5478  
824-13 Sindang-dong, Jung-gu, Seoul 04604, South Korea

## PROFESSIONAL SUMMARY

Results-driven Technical Sales professional with a proven track record of penetrating new international markets and delivering bespoke engineering solutions to top-tier clients like Samsung Electronics. Expert in the full B2B sales cycle, from technical consultation and needs analysis to contract negotiation and post-sales support. Combines deep product knowledge with exceptional cross-cultural communication skills (fluent English, OPIc IH) to build immediate trust and drive revenue growth, demonstrated by securing a \$50K inaugural export contract and increasing B2C average transaction value by 200%.

## EDUCATION

Bachelor of Engineering - Nano New Materials Science and Engineering  
Kyungnam University  
March 2017 - February 2021  
GPA: 94.63/100

Coursework: Materials Science & Engineering, Polymer Science, Materials Characterization, Physical Chemistry, Nanomaterial Synthesis

## PROFESSIONAL EXPERIENCE

Technical Solutions & Sales Engineer

**HYUNDAI PIPE CO., LTD.**

July 2023 - March 2025 (1 year 9 months) | Technical Research Institute & Quality Management Team

### Key Responsibilities & Achievements:

- Spearheaded the end-to-end development and commercialization of a domestic PPR pipe solution for Samsung Electronics' semiconductor facility, securing a ₩500M annual supply contract.
- Accelerated the project timeline by 50%, delivering a market-ready product in 6 months (vs. 12-month industry average) by embedding real-time client feedback through 8 dedicated quality assurance meetings.
- Engineered and implemented a standardized HDPE fusion manual based on German DVS 2202/2207 standards, reducing critical client defect rates by 90% (from 20% to 2%) and saving key accounts an average of ₩30M in annual rework costs.
- Secured the company's first international export contract (annual value: \$50,000) by leading technical sales and business development efforts at the ASIA WATER 2024 expo in Malaysia.
- Generated over 200 new buyer leads and cultivated relationships with 80 target companies at the expo, leading to 15 follow-up meetings and the signing of 2 strategic distribution MOUs.

K-Beauty Sales & Cross-Cultural Consultant  
OLIVE YOUNG (Flagship Store)

April 2025 – Present | South Korea

- Drove a 200% increase in average transaction value (from ₩100K to ₩300K) through expert consultative selling and upselling of "Korean skincare routine" concepts to a 90% international tourist clientele.
- Achieved an 85% sales conversion rate and a 70% cross-sell success rate by rapidly diagnosing customer needs and leveraging real-time market insights on national beauty trends (China, Japan, Southeast Asia).

Customer Experience Specialist  
CGV (Multiplex)

Jul 2018 – Jan 2019 | South Korea

- Actively addressed customer discomfort with new digital kiosks, resulting in a 70% reduction in related complaints (from 10 to 3 per week) through proactive 1-on-1 guidance and personalized support for guests.
- Provided effective hands-on assistance to over 200 elderly customers on kiosk usage, leading to 60% demonstrating independent use on subsequent visits and significantly improving overall customer self-sufficiency and satisfaction.

Liaison Officer, US-Korea Joint Operations  
REPUBLIC OF KOREA ARMY

March 2021 - July 2023 | Fire Direction Officer, Information Officer, Operations Officer

- Selected as a key liaison officer for a time-critical US-Korea joint military operation, mastering complex US fire-coordination protocols within 48 hours to ensure 100% operational success.
- Flawlessly communicated over 20 critical fire missions between US and Korean forces, earning a direct commendation from the US commander for exceptional performance and accuracy under pressure.

## SKILLS & TECHNICAL COMPETENCIES

---

### Plastic Materials & Certification

- PE/HDPE/PPR pipe systems
- Thermoplastic property analysis
- International Standards (ISO, ASTM, AWWA, DVS)
- Quality control & testing protocols

### Project Management

- R&D project planning & execution
- Cross-functional team coordination
- Stakeholder management
- Process optimization

### Digital & AI Capabilities

- Python, NumPy, Pandas, Matplotlib
- TensorFlow, OpenCV (AI/ML)
- Java, Kotlin (App Development)
- Claude API, ChatGPT (Process Automation)

### Languages

- Korean: Native
- English: Business Level (OPIc IH)
- Technical English: International standards proficient
